

Evaluation of Sexual Behaviors in Children

Kellogg (COCAN) Peds 2009; 124

Normal or Common	Less Common	Uncommon	Rarely Normal
Touching self in private/public	Rub body against others	Ask others to engage in specific act	More than 4 years between participants
Touch peer or new sibling	Touch adult genitals	Insert objects into genitals	Behaviors resulting in pain
Show genitals to peers	Crude mimics of sex movements	Imitate intercourse	Physically aggressive too
Tries to view others nude	Try to use tongue in kissing	Touches animal genitals	Coerces others
Behaviors distractible	Moderately distractible	Resistant to distraction	Angry if distracted
