

InnovateHER: Minnesota Women's Health Day

Come celebrate women and the importance of their health.

Tuesday, May 19

9 a.m. - 3 p.m.

St. Cloud Public Library

This event, during National Women's Health Month, showcases local research and projects designed to improve healthcare for women. The event will feature speakers, presentations, and posters by high school and college students, educators, clinicians, and researchers from the region. Participation is not limited to just female-led research or projects.

All are welcome. The audience is the public.
