

**A Child Advocacy Center (CAC)** provides a safe, child-friendly environment for interviews and medical evaluations for children and their families who may have experienced sexual abuse, physical abuse, sexual exploitation or witnessed a violent crime. Historically, children who were victims of abuse were shuffled from agency to agency.

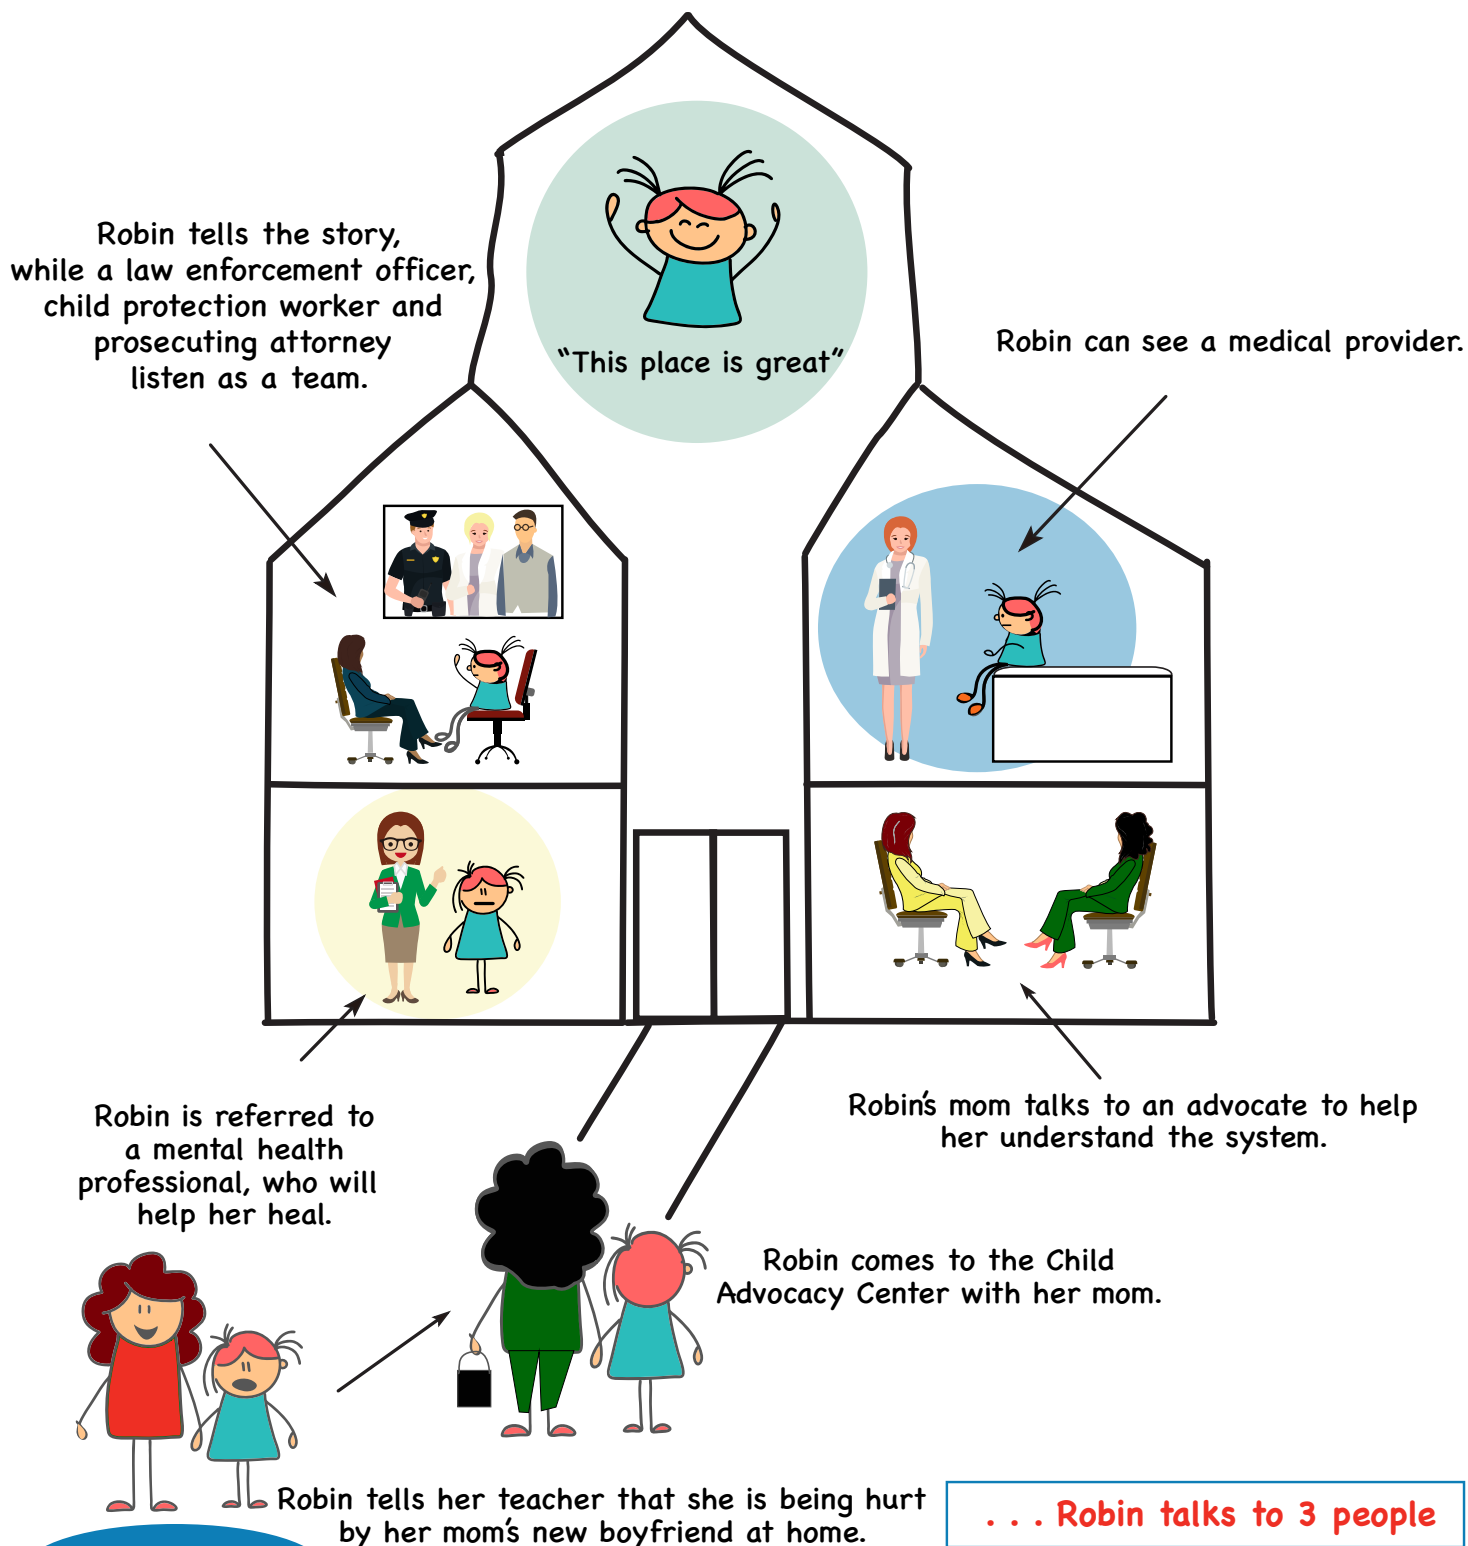

## Typical Case Robin, age 5

**Robin had to talk to 15 people, but now . . .**

**The CAC model brings the system to the child.** The Central Minnesota Child Advocacy Center, located in Sartell, offers a “one-stop approach” to children and their families. The multidisciplinary team includes: law enforcement officers, victims' advocates, medical providers, mental health professionals, prosecuting attorneys and child protection workers.
