Employee, Volunteer, Student, & Contract Staff Requirements

___ Immunizations:

- Hepatitis B (Positions with potential for exposure)
 - Documentation of 3 dose series, personal attestation, positive titer, or declination.
- Influenza vaccine (During flu season, Approximately November - March)
 - Documentation of seasonal vaccine or utilize mask when in patient care areas.
- Measles, Mumps, and Rubella (MMR)
 - Documentation of 2 MMR vaccines or positive titers.
- Tetanus Diphtheria Accellular Pertusis (Tdap)
 - Documentation of 1 Tdap vaccine given at age 11 or later.
- Varicella (Chicken Pox)
 - Documentation of 2 varicella vaccines or positive titer. Zoster (Shingles) vaccine will be accepted as proof of 1 vaccine.

___ Negative Urine Drug and Alcohol Screen within 90 days of start date.

(Minimum of 7-panel drug screen plus alcohol and adulterants. 7-panel drug screen includes: Amphetamines, Cannabinoids, Cocaine, Phencyclidine, Opiates, Barbiturates, and Benzodiazepines).

___ Tuberculosis Skin Test (TST)

Two step process - First step must be completed prior to start and the second within 30 days of start. A copy of a negative TST within the past 12 months will be accepted as the first step. If you have had a past positive, we need a copy of the positive with a chest x-ray following.
