

SUMMER NURSE INTERNSHIP

Interns play an important part in helping CentraCare deliver exceptional patient care. We're here for you as you strive for an excellent nursing career.

CentraCare offers a paid summer internship opportunity to registered nursing students to enhance their understanding of nursing professionalism, gain hands-on experience, and learn about the many nursing opportunities we offer.

During this internship, students will work directly with a registered nurse preceptor and be allowed to perform tasks and duties that have become familiar to them during their nursing education.

Students who successfully complete the program receive preference for future employment following the internship program.

Program Objectives

- Utilize the nursing process to provide safe patient care
- Enhance prioritization, organization and time management skills in the delivery of nursing care
- Complete reports and assessments and collect data in a timely manner to the appropriate clinical site staff
- Document patient care provided accurately, completely and consistently with clinical site protocols
- Enhance communication skills with patients, families, co-workers and other members of the health care team

Eligibility for the program

- Enrolled in a BSN/BAN degree program
- Be between Junior and Senior year of nursing school
- Enrolled in a Minnesota Board of Nursing-approved summer nurse internship course
