

Utku H.
STEP Force Volunteer

I am a college student majoring in Biomedical Science.

I am involved in the hobbies of cooking and team sports.

I am loving working with genial, enthusiastic, understanding and supportive team members. I also really like the complimentary food in the cafeteria.

I am recommending you volunteer too; all of the staff is so helpful and supportive. It is a great opportunity to observe the environment in the medical field!

I am a CentraCare volunteer!
